

# Spot an income scam

Everyone can be targeted by income scams.

**A business offer may say:**

Make money selling in your community. Be your own boss!

Learn from the experts how to generate guaranteed income.

You got the job! Deposit this check and send money or buy gift cards.

Work from home and make money with little time and effort!

Just recruit more people to make big money!

**Before you accept a business offer:**

Take your time.

Be skeptical about success stories and testimonials.

Don't bank on a "cleared" check.

Do your research.
