Upstanding in the Garden - KEY

Answers may vary.

1

The Greenhouse

- A. Your friend scores high on a big math test. Someone spreads a rumor on a social media platform that your friend must have cheated on the test to get such a good grade.

I would not spread the untrue message online or in person, and I would tell my teacher, parents, or a trusted adult about what's happening.

- B. You invite the new kid to sit with your friends at lunch. Later, someone makes fun of them in the group chat saying, "Did you see how dirty their clothes were?"

I would stand up for the new kid. I would respond that that is not a nice thing to say about someone on the group chat.

2

The Fountain

- A. Someone you know posts an embarrassing photo of your friend on a social media platform. When you say that is bullying behavior, they say, "Be quiet or you're next!"

I would first talk to a parent or trusted adult. Then I would ask them to help me report the photo on the social media platform.

- B. Your cousin posts a video of themselves doing a dance challenge. Someone makes a hurtful comment about their appearance and dance skills. Then a bunch of other people pile on, liking and agreeing with the comment.

I would not write any hurtful comments on the video. I would go talk to my cousin and try to make them feel better.

The Flower Garden

A. Someone on a video game gets mad and shouts bad words at you and your friends.

I would block the person on the video game. Then I would talk to a parent or trusted adult.

B. A Youbie in your class chokes on their lunch and another kid records it and sends the video to the whole class.

I would not spread the video online. I would stand up for the Youbie and get a group of classmates together to encourage them not to spread the video online. Then, I would talk to a parent or trusted adult.
