WARM-UP

Being a Good Neighbor

- 1 **WHAT** actions make a good neighbor?
- 2 **WHAT** actions make a good digital citizen?

Think Before You Send

Pause before sending

Ask yourself, "Who needs to see this message?"

Think about any unintended audiences

Promote positivity

Get help from a parent or trusted adult

CHALLENGE ACTIVITY

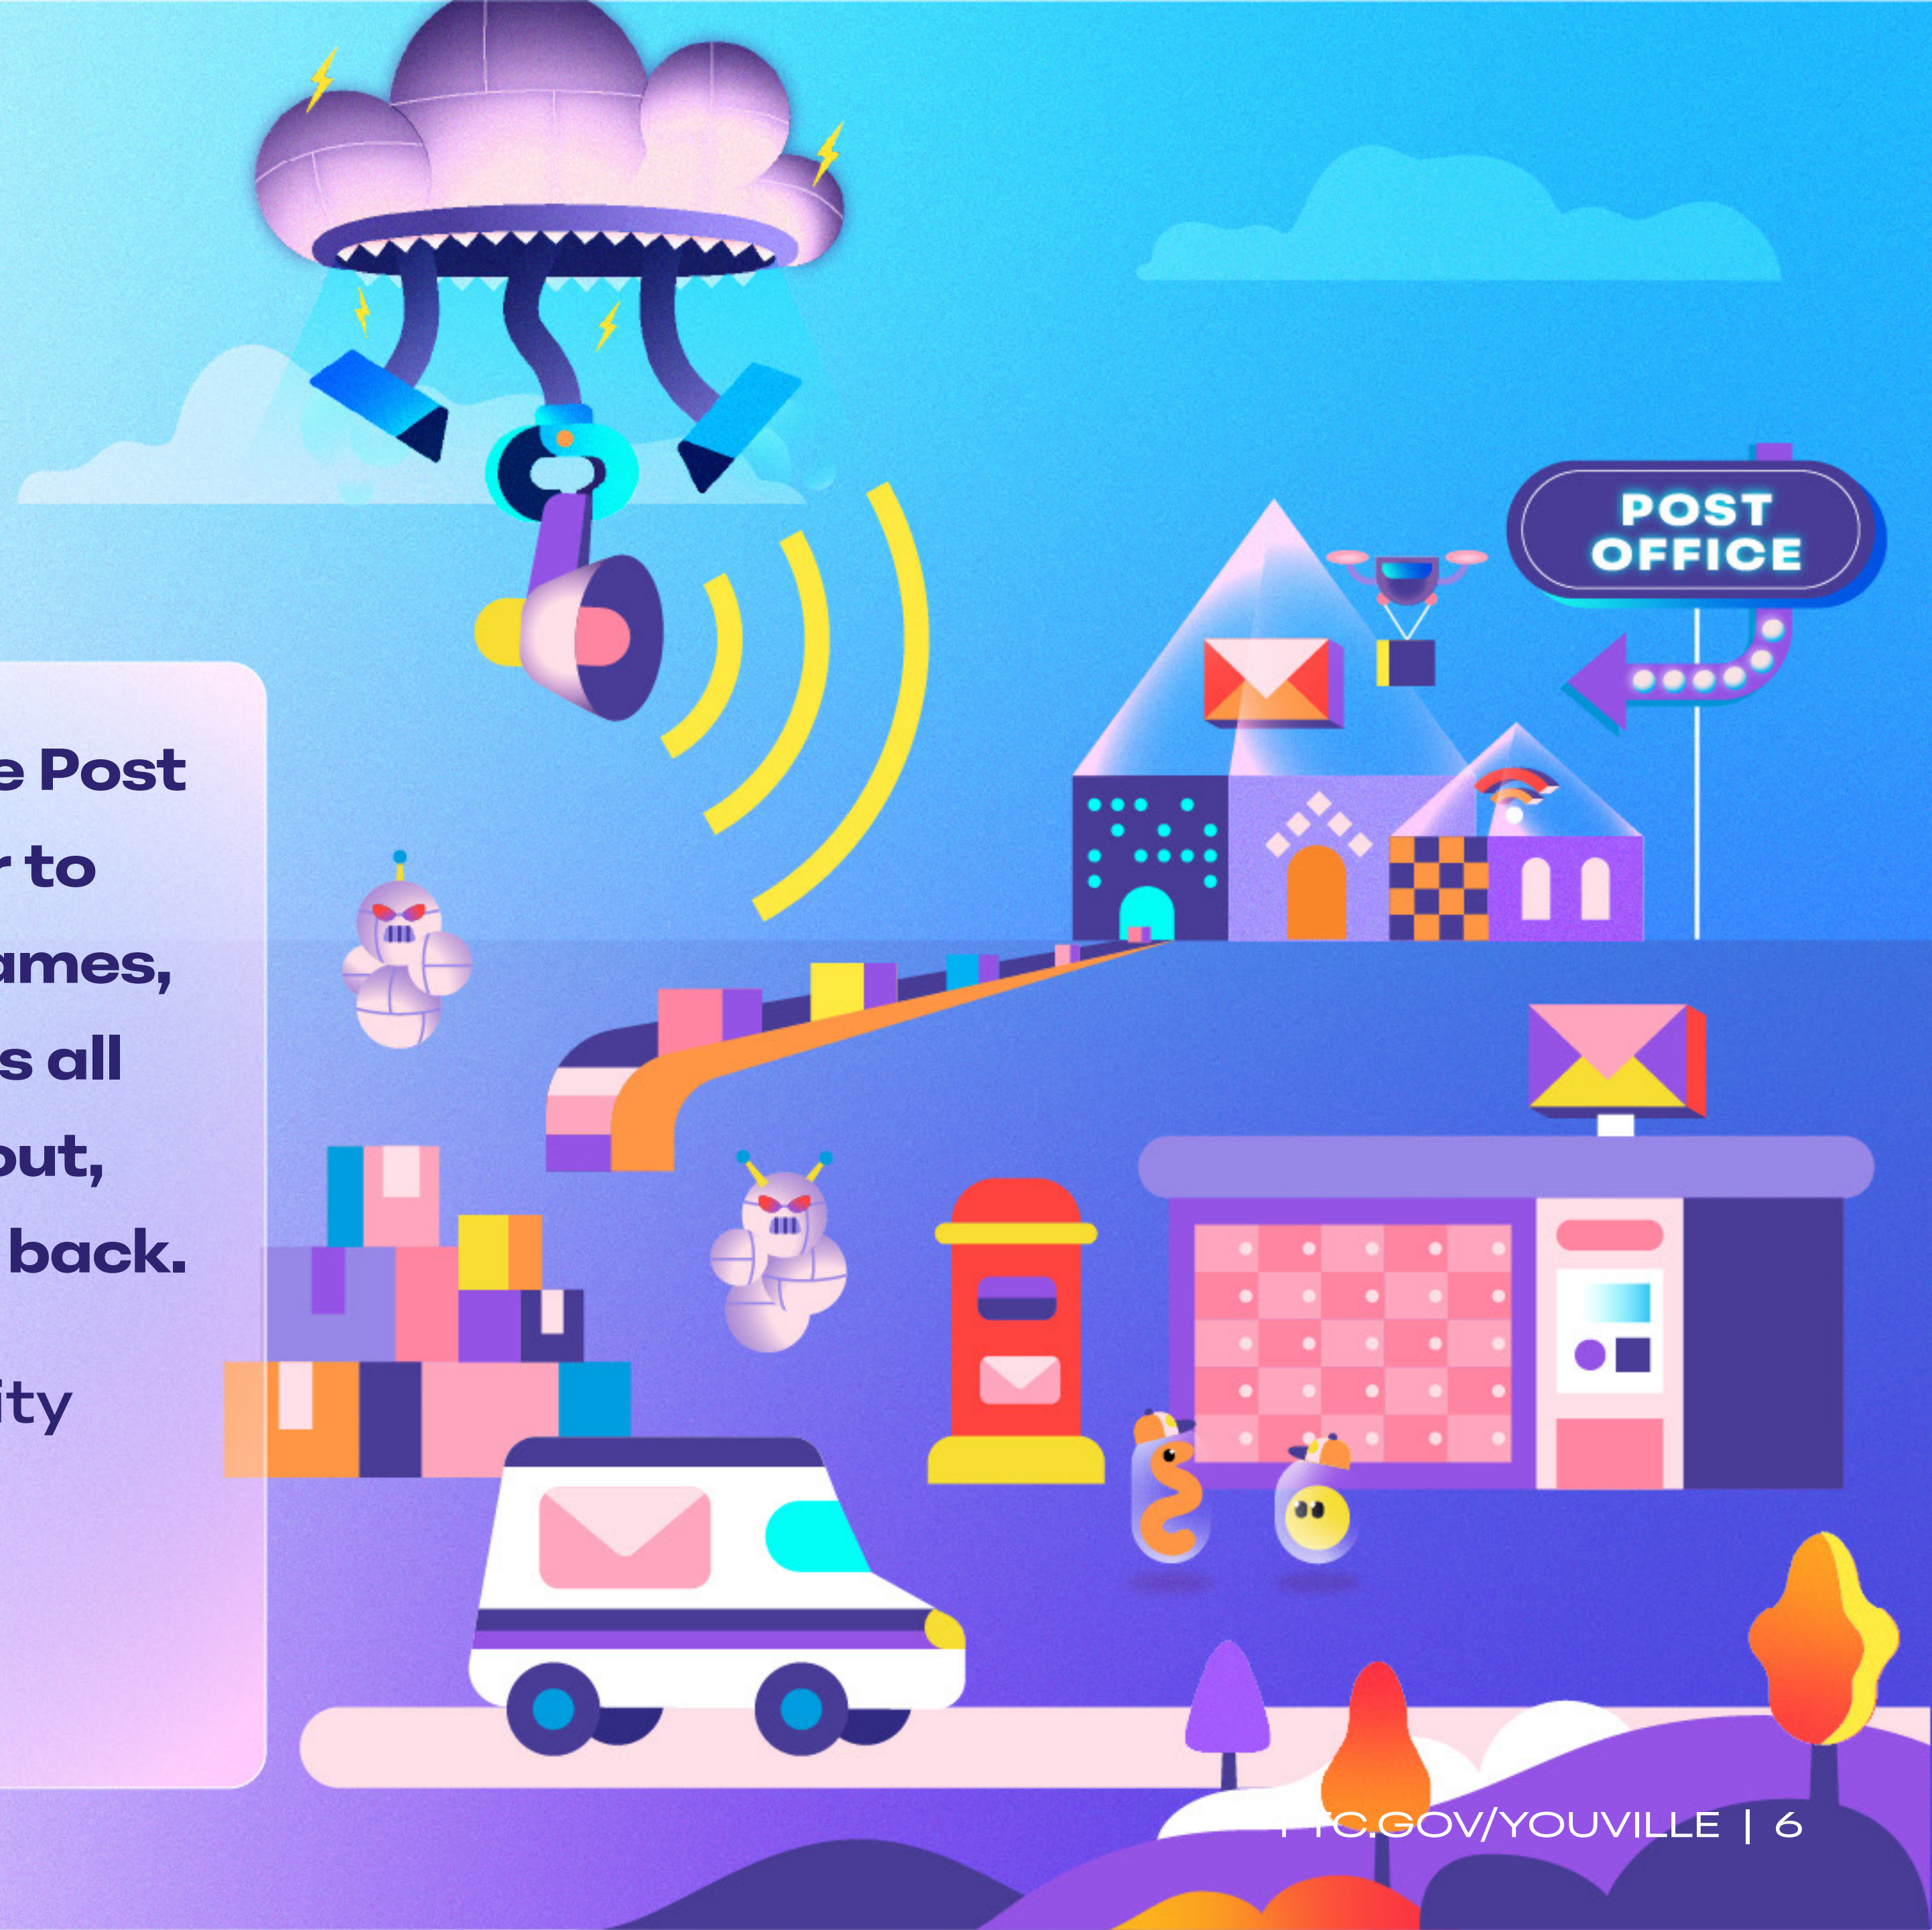

Can't Take It Back

Can't Take It Back

The Cloud has descended on the Youville Post Office. It installed a Negativity Amplifier to boost negative texts, emails, chats in games, and other messages above positive ones all over Youville. Once these messages go out, the Youville Post Office can't take them back.

Help the Youbies intercept the Negativity Amplifier by using the five strategies to craft positive responses to each negative message.

Can't Take It Back

- 1 PAUSE** before sending
- 2 ASK** yourself, "Who needs to see this message?"
- 3 THINK** about any unintended audiences
- 4 PROMOTE** positivity
- 5 GET HELP**

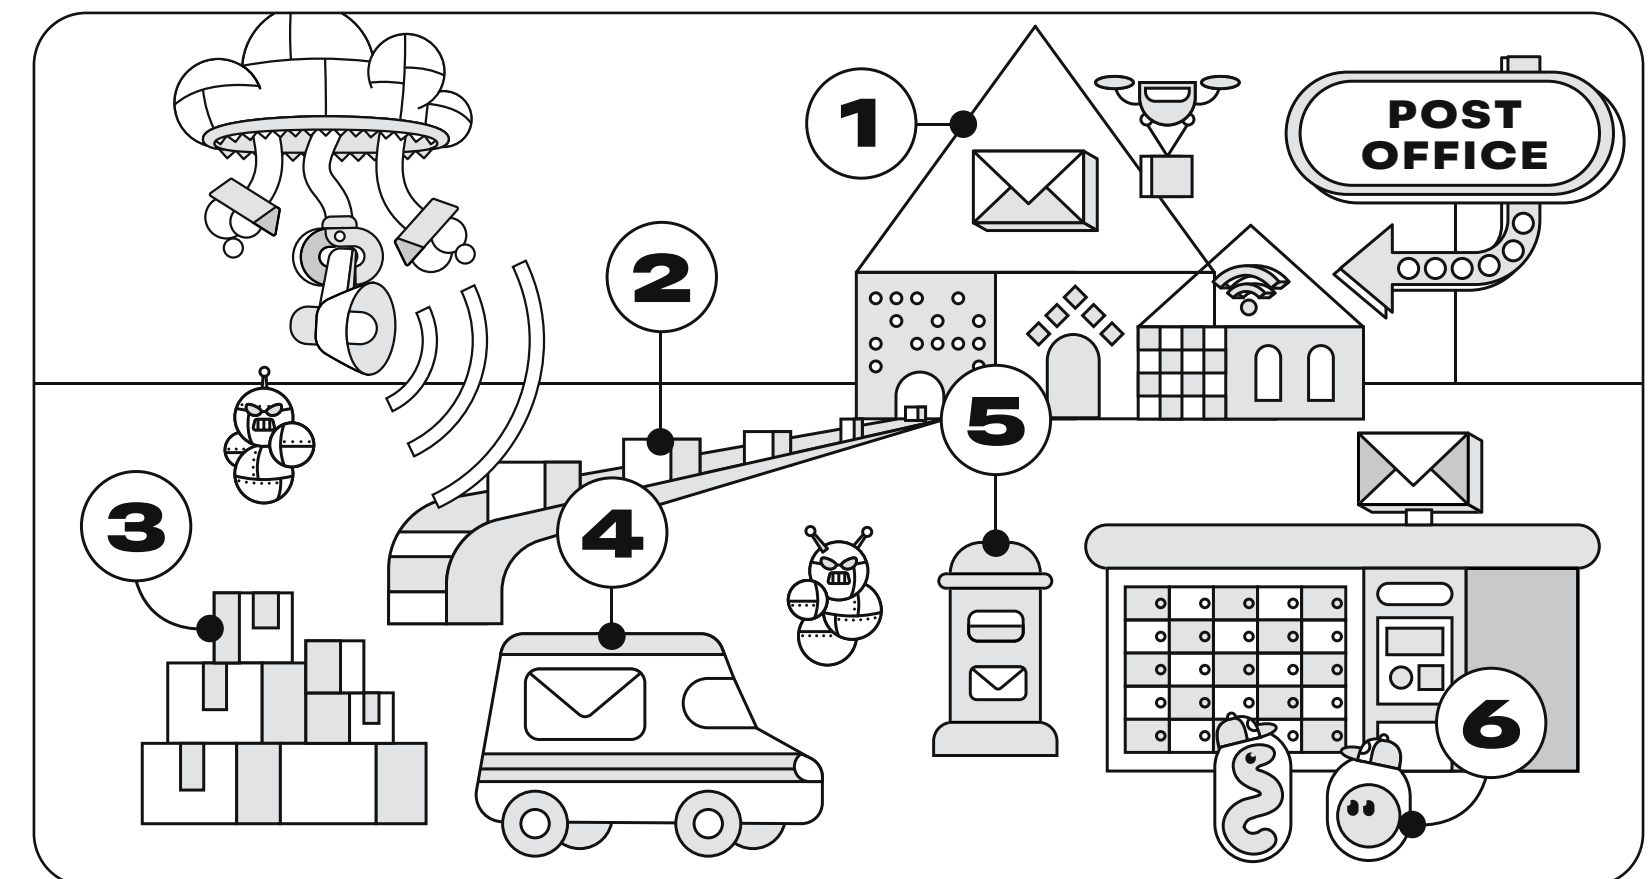

Can't Take It Back

The Cloud has descended on the Youville Post Office. It installed a Negativity Amplifier to boost negative messages in texts, emails, and chats — drowning out positive messages all over Youville. Once these messages go out, the Youville Post Office can't take them back.

With your group, follow the mail route to write how you would respond to each scenario.

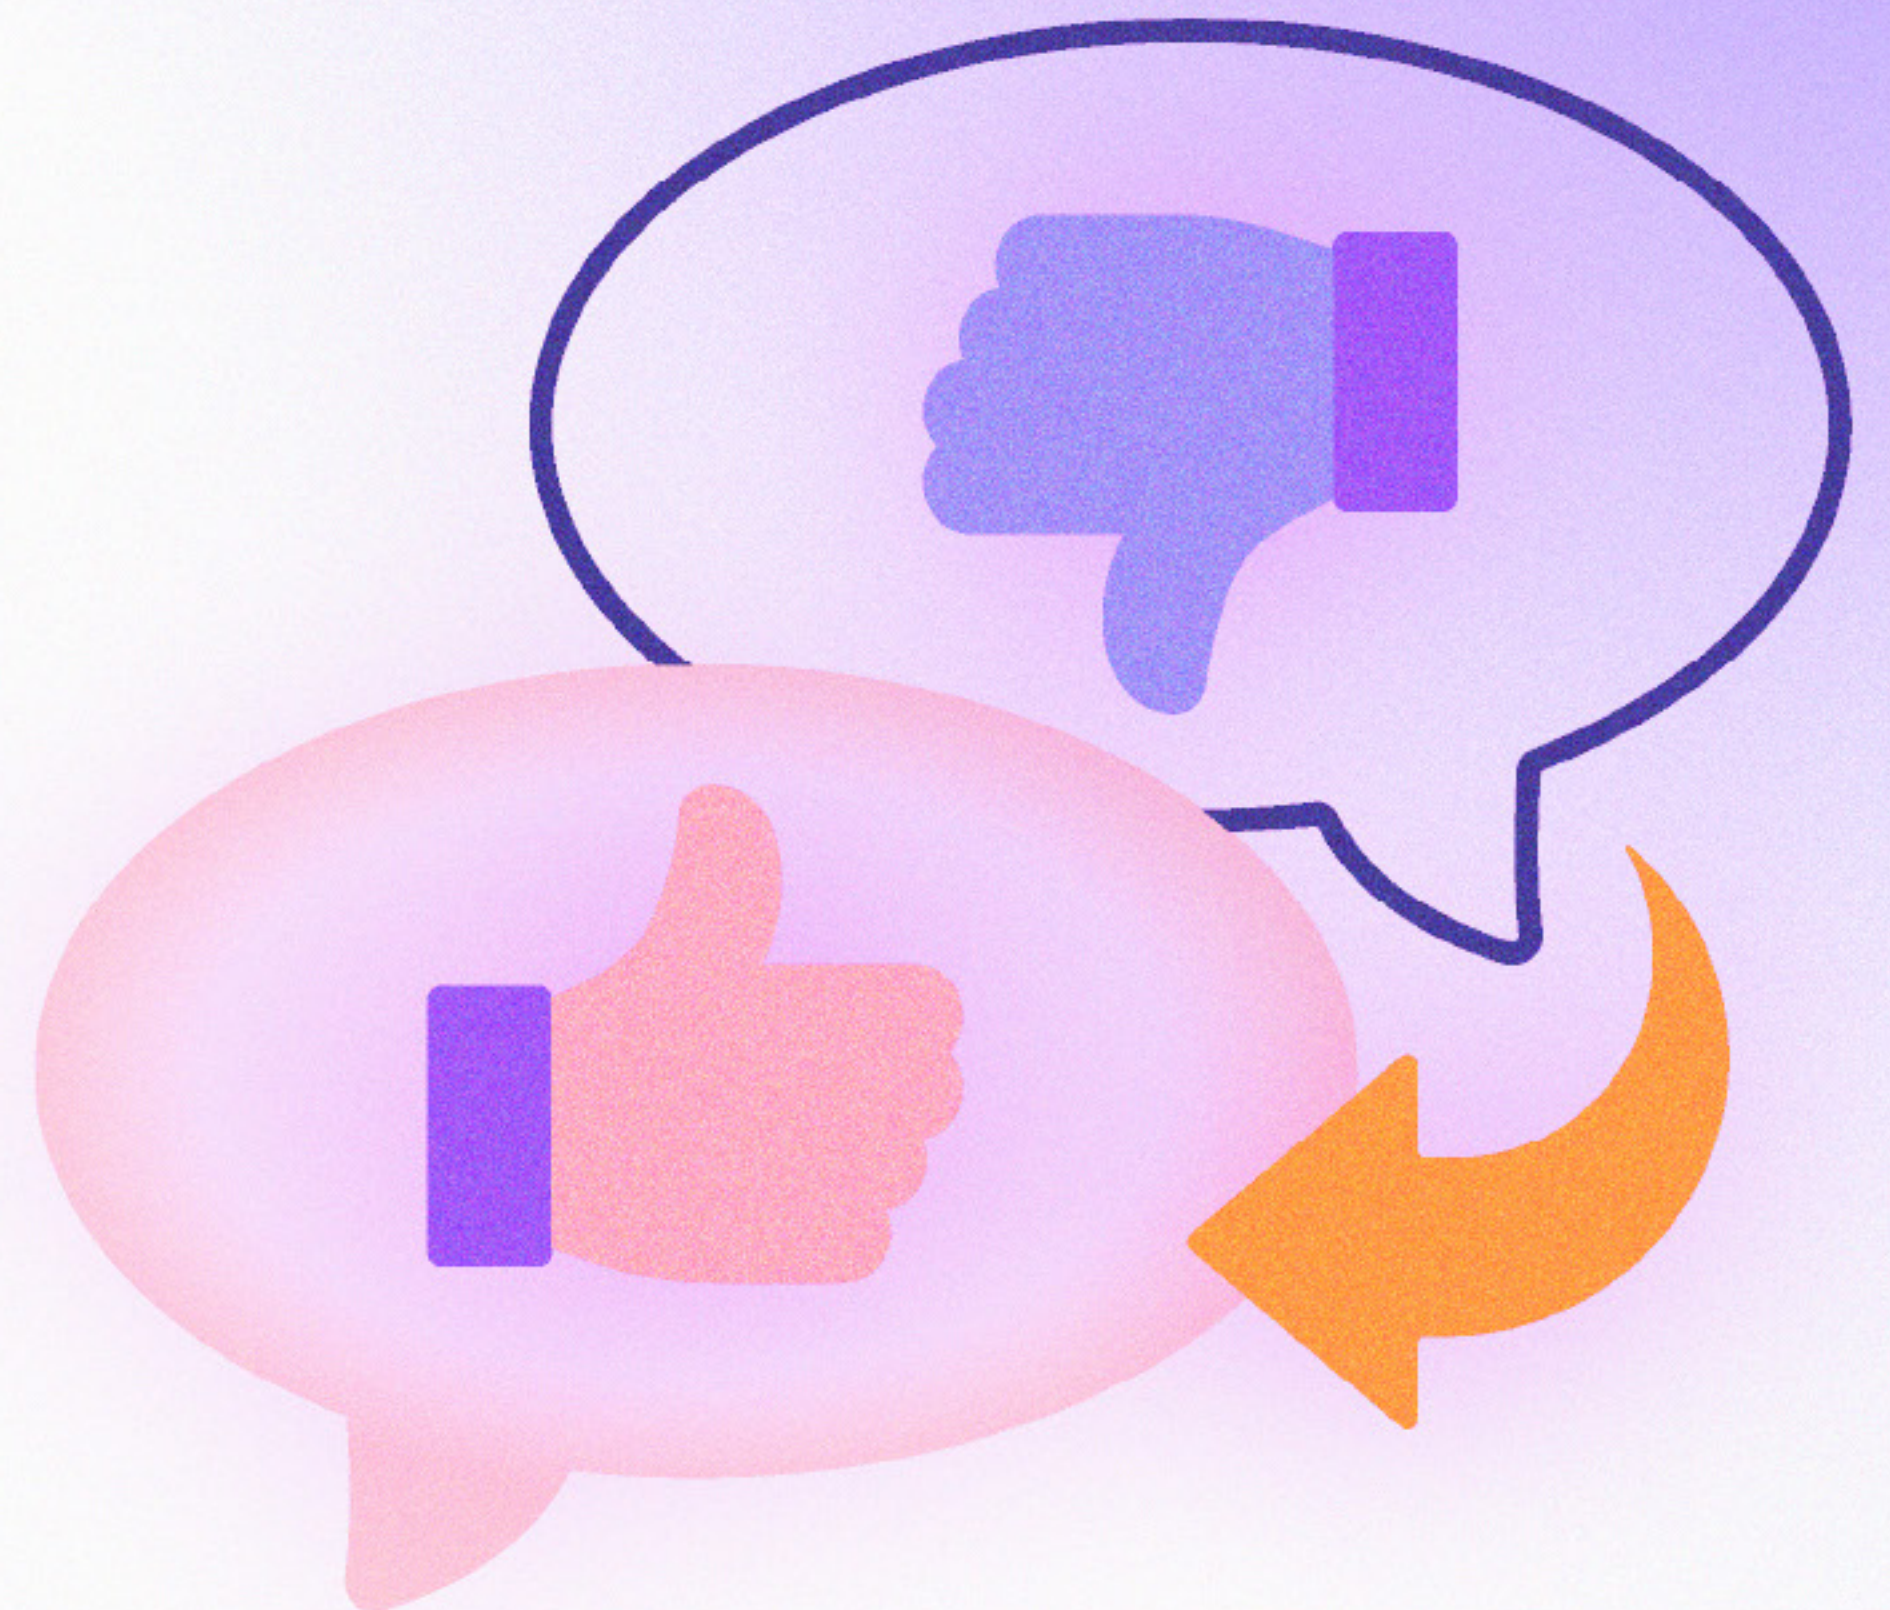

Use the five strategies below to help write your response.

- **Pause** before sending
- **Ask** yourself, "Who needs to see this message?"
- **Think** about any unintended audiences
- **Promote** positivity
- **Get help**

When You Send a Negative Message

1. Have you ever sent a negative message to a friend?
2. How would you make it right?

Good Job!

Looks like the Youbies intercepted the Negativity Amplifier by writing responses to scenarios.

The Claud has moved on to another part of Youville.
